BIDRIDGE QUICK REFERENCE

Tile Layout Planner

Tile layouts, cut lists, full-size templates and a drawing set

GET STARTED

1. Pick what you're tiling: one surface, or a set like a tub surround
2. Under Tile & pattern, set the tile size, pattern and joint
3. Fill in the title block, tap Preview sheets, then Save PDF

MAIN TOOLS

+ Add surface	Adds another wall or floor to the job as its own tab
Side by side	Shows the walls unfolded so the pattern wraps corners
Balance cuts	Shifts the pattern to get the widest edge cuts
Plan the slope	Slopes a shower floor to its drain; works out the mud
Preview sheets	Shows the drawing set before you save the PDF
Order list (CSV)	Saves what to order, with overage, as a spreadsheet

KEYBOARD SHORTCUTS

Ctrl+Z	Undo (Cmd+Z on a Mac)
Ctrl+Y	Redo
Ctrl+Shift+Z	Redo (other way)
Esc	Close an open menu

WHAT GOES TO BIDRIDGE

- Each surface as its own room: tile sf, niches, curbs, borders
- Tile to order, trim, movement joints and extra cuts
- Shower floor slope: the drain and the deck mud
- Client, site address, finish schedule and job notes
- Files: drawing set PDF, cut list and order list CSV

WHAT IT PRINTS

Drawing set PDF with full-size templates, cut list and order list CSV

BEFORE YOU PRINT

- Print templates at 100%. Measure the 1 in. check square before you cut.
- Confirm trim sizes with your supplier. Verify slope with your building dept.
